

# Updates Close Security Flaws

App Updates not only give new features but also patch security flaws that could expose your data, money, or identity.

## Stronger Defenses with Every Update

- Updates improve performance to ensure apps and systems run smoothly, reducing crashes and errors.
- Security vulnerabilities are fixed through updates.
- Always update mobile banking apps and UPI apps to have stronger fraud detection.

## Best Practices

- Update Only from Trusted Play Stores such as Google Play Store.
- Antivirus and mobile banking apps must be up to date.
- Check, Verify and Update Notifications.
