Topic – AI Voice & Deepfake Scam

Person 01

- I just got a call that sounded exactly like my boss, asking me to send money. It felt so real.
- That's the new trick — AI voice scams and deepfakes. Hackers can copy voices and faces now.
- Wait, so I can't even trust what I hear or see anymore?

Person 02

- Not blindly. Always double-check requests and never rush.
- In today's world, awareness is your best armor. Stay alert. Stay secure. Don't let AI scams fool you.
- This message is brought to you by Canara Bank for National Cyber Security Awareness Month, because your safety matters to us.
