

CARDING

STAY AWARE. STAY SECURE.

Carding is an **illegal activity** that uses stolen credit/debit card information to make online transactions or withdraw money without the owner's permission.

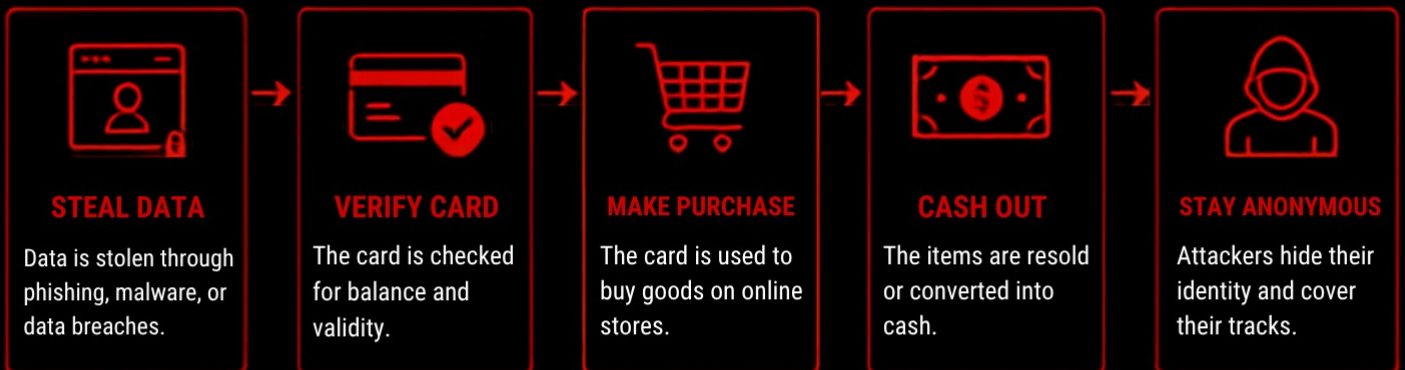

Goal: Obtain money or goods quickly and anonymously.

Carding is not a skill.
**IT IS A SERIOUS CRIME
THAT HURTS MANY PEOPLE.**

Every illegal transaction
always has a **real victim**
behind it.

HOW CARDING WORKS

HOW TO STAY SAFE

- Protect your card details—never share your PIN, CVV, OTP, or passwords.
- Use only trusted, secure websites and verified payment platforms.
- Enable instant transaction alerts to detect unauthorized activity quickly.
- Report suspicious transactions immediately and block your card without delay.
