The issuer will affect a write down within 30 days of the PONY write down amount being determined and agreed with the RBI. <p>The PONY Trigger in respect of the issuer or its group event shall be the earlier of:</p> <ul style="list-style-type: none"> a) a decision that the principal write-down, without which the Issuer or its group (as the case may be) would become non-viable, as determined by the Reserve Bank of India; and b) the decision to make a public sector injection of capital, or equivalent support, without which the Issuer or its group (as the case may be) would become non-viable, as determined by the relevant authority. <p>The PONY trigger will be evaluated both at consolidated and solo level and breach at either level will trigger write off.</p> <p>For this purpose, the Bank may be considered non-viable if:</p> <p>The Bank which, owing to its financial and other difficulties, may no longer remain a going concern on its own in the opinion of the Reserve Bank of India unless appropriate measures are taken to revive its operations and thus, enable it to continue as a going concern. The difficulties faced by the Bank should be such that these are likely to result in financial losses and raising the Common Equity Tier 1 Capital of the bank should be considered as the most appropriate way to prevent the bank from turning non-viable. Such measures would include permanent write-off in combination with or without other measures as considered appropriate by the Reserve Bank of India (RBI). RBI would follow a 2 stage approach to determine the non viability of the issuer. The stage 1 assessment would consist of purely objective and quantifiable criteria to indicate that there is a prima facie case of the issuer approaching Non viability and therefore a closer examination of the issuer's financial situation is warranted. The stage 2 assessment would consist of supplementary subjective criteria which, in conjunction with the stage 1 information, would help in determining whether the issuer is about to become non viable. These criteria would be evaluated together and not in isolation.</p>

Once the PONV is confirmed, the next step would be to decide whether rescue of the issuer would be through write off a loan or write off in conjunction with a public sector injection of funds.

The write off of any common equity Tier 1 Capital shall not be required before the write off of any non equity (Additional Tier 1 and Tier 2) regulatory capital instrument. The order of write off of the bonds shall be as specified in the order of seniority as per the Disclosure Document and any other regulatory norms as may be stipulated by the RBI from time to time.

A write down may occur on more than one occasion.

Once the principal of the Bonds have been written down pursuant to PONV trigger event, PONV write down, amount will not be restored in any circumstances, including where the PONV trigger event has ceased to continue.

A write down due to a PONV Trigger event shall occur prior to any Public Sector injection of capital so that the capital provided by the Public Sector is not diluted. However, any capital infusion by Government of India into the issuer as the promoter of the issuer in the normal course of business may not be construed as a PONV trigger.

The Bondholders shall not have any residual claims on the issuer which are senior to ordinary shares of the issuer, following a PONV trigger and when write off is undertaken.

Any compensation paid to the instrument holders as a result of the write-off must be paid immediately in the form of common shares.

If the Bank is amalgamated with any other bank after the Bonds have been written-off permanently, these cannot be written-up by the amalgamated entity.

If the RBI or any other relevant authorities decide to reconstitute the issuer or amalgamate the issuer with any other bank under the Section 45 of BR Act, 1949, the Issuer will be deemed as non-viable or approaching non-viability and the PONV Trigger and pre-specified trigger as per Basel III Guidelines will be activated. Accordingly, the Bonds will be permanently written-down in full prior to any reconstitution or amalgamation.

The Bank facing financial difficulties and approaching a PONV shall be deemed to achieve viability if within a reasonable time in the opinion of RBI, it will be able to come out of the present difficulties if appropriate measures are taken to revive it. The measures including augmentation of equity capital through a permanent write-off/public sector injection of funds are likely to:

- a) Restore confidence of the depositors/ investors;
- b) Improve rating/ creditworthiness of the bank and thereby improving its borrowing capacity and liquidity and reduce cost of funds; and
- c) Augment the resource base to fund balance sheet growth in the case of fresh injection of funds.

The amount to be written-off will be determined by RBI. The trigger at PONV will be evaluated both at consolidated and solo level and breach at either level may trigger write-off.

The Bonds can be written down multiple times in case the bank hits the PONV trigger levels subsequent to the first write down. The Bonds

	<p>which has been written off shall not be written up.</p> <p>In any case it should be noted that following writing off of the Bonds and claims and demands as noted above neither the Bank, nor any other person on the Bank's behalf shall be required to compensate or provide any relief, whether absolutely or contingently, to any Bondholder or any other person claiming for or on behalf of or through such holder and all claims and demands of such persons, whether under law, contract or equity, shall stand permanently and irrevocably extinguished and terminated. Unless otherwise specified in this Disclosure Document, the write-off of any common equity or any other regulatory capital (as understood in terms of the aforesaid circular or any replacement/ amendment thereof), whether senior or pari-passu or subordinate, and whether a Tier I capital or otherwise shall not be required before the write off of any of the Bonds and there is no right available to the Bondholder hereof or any other person claiming for or on behalf of or through such holder to demand or seek that any other regulatory capital be subject to prior or simultaneous write off or that the treatment offered to holders of such other regulatory capital be also offered to the Bondholders.</p>
Other Events or Treatment in the event of Winding-Up, Amalgamation, Acquisition, Re Constitution etc. of the Bank	<p>Treatment of Bonds in the event of Winding-Up</p> <p>The Bonds cannot contribute to liabilities exceeding assets if such a Balance sheet test forms part of a requirement to prove insolvency under any law or otherwise.</p> <ol style="list-style-type: none"> If the issuer goes into liquidation before the Bonds have been permanently written down, these Bonds will absorb losses in accordance with the order of Seniority indicated in the Information Memorandum and as per usual legal provisions governing priority of charges; If the issuer goes into liquidation after the Bonds have been permanently written down, the holders of these instruments will have no claim on the proceeds of liquidation. <p><i>Amalgamation of a banking company (section 44A of the Banking Regulations Act, 1949):</i></p> <p><i>Subject to the Banking Regulation Act, 1949 as amended</i></p> <ol style="list-style-type: none"> If the Bank is amalgamated with any other bank before the Bonds have been permanently written-off, the Bonds will become part of the corresponding categories of regulatory capital of the new bank emerging after the merger. Accordingly, the Bonds will be fully written-off permanently before amalgamation / reconstitution in accordance with these rules. The Order of write-off of the present Tier 2 Bonds vis-à-vis other capital instruments which the Bank has already issued or may issue in future, will be in accordance with the order of "Seniority of the Bonds" as mentioned earlier in the Information Memorandum and per usual legal provisions governing priority of charges.</p>
