

Beware of WEDDING CARD SCAM on WhatsApp

Cyber criminals send **fake wedding invitations** via **WhatsApp** that install malware & steal banking information.

HOW IT HAPPENS:

- 1 You receive a **digital wedding invitation** on WhatsApp.
- 2 The message includes a **link or apk file** disguised as a wedding card.
(e.g. Wedding_Invite.exe / Marriage_Card.apk)
- 3 When opened, it **installs malware** that reads your SMSs and steals OTPs, banking and personal details.

! No real wedding invite will ask you to install an .apk file.

Never open attachments received from unknown **WhatsApp** numbers.
